ABOUT

I'm Shiva Aleti, a B.S.c.I.T student at M.L. Dahanukar College of Commerce, affiliated with the University of Mumbai. I excel in analytical thinking, problem-solving, and have a strong aptitude for mathematics. With a keen eye for detail, excellent time management, and adaptability.

I'm eager to kickstart my career in front-end development, utilizing my skills to contribute to web projects.

PROJECTS

- ❖ **PhotPro: Your Online Image Editor** – *https://imagemagic.netlify.app/*
  - I've created an Image Editor website that offers a user-friendly platform for image editing. Users can easily enhance their photos with various tools and download the edited images hassle-free.
- ❖ **Flying Bird Game** – *https://jumpingbirdgame.netlify.app/*
  - Built my fourth project includes functionality, designing and best performance game.
- ❖ **To Do List** – *https://todomakelist.netlify.app/*
  - To Do is a small project for keeping records of what to do and which task has done. It is made by JavaScript, HTML and CSS.
- ❖ **Tic Tac Toe** - *https://todomakelist.netlify.app/*
  - I crafted a Tic-Tac-Toe project to demonstrate my coding skills and passion for interactive applications, exemplifying my commitment to engaging user experiences.
- ❖ **Dinosaur Game** – *https://dinousergame.netlify.app/*
  - Built my third project includes functioning, designing and best performance game.
- ❖ **Car Animation** – *https://car123animation.netlify.app/*
  - Built and designed my second project includes design and implementation.
- ❖ **Hunar Brochure based on NSS** – *https://nssbrouchuredahanukar.netlify.app/*
  - Built this project first time for our college event and learned lot about project and how to implement things in any project. Since it is my first project, it takes 2 days for creating and implementation.
